It is the shopping place for you if you want to secure values extraordinary—if you want to buy without spending time searching over the city, and if you want the best, the latest and the most varied. The stores whose cards appear above are dealers in Paints, Oil, Glass, Vehicles of all kinds, Wines, Liquors, Clothing, Furniture and Carpets, Harness and Saddles, Hardware and Machinery, Drugs, Banking Facilities, Watches, Diamonds, Jewelry, Shoes, Hats, Trunks, Stoves, Crockery, Household Furnishings, Boarding and Lodging and Farm Lands. They are working to make this 1400 East Main block famous. This makes it to the interest of both merchants and retail buyers to purchase from them. Read their advertisements and note that they sell everything you need.

## TO CHANGE ORDER OF GOVERNMENT

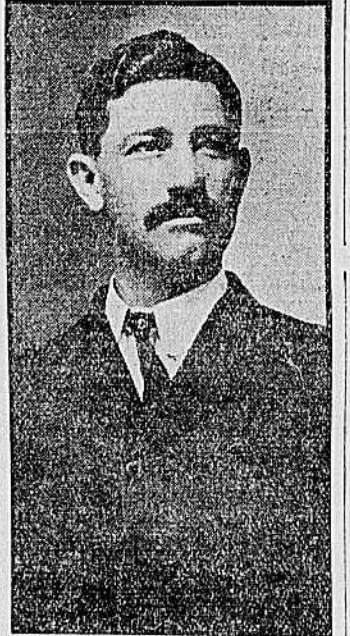

Charlottesville Ready to Adopt Business Methods in City Affairs.

[Special to The Times-Dispatch.]  
Charlottesville, Va., February 19.—The City Council was the scene yesterday in the first act which may ultimately result in a practical revolution of the city's affairs and the installation of government by commission. At the end of perhaps half an hour of discussion a resolution was adopted with scarcely a dissent which put it up to the City Attorney to draw an amendment to the Constitution, which, if passed by the Legislature at its present session, will reduce the Council to four members, elected respectively from each ward, who will conduct the departments of Charlottesville's business affairs for a consideration, and, according to the unanimous agreement of the seven members present at the meeting, in a far more satisfactory and direct manner than at present is the case.

John E. Patton offered the resolution, which, as finally amended, inaugurated the first tangible act toward changing the old order of things in city government and coming down to a purely business administration of the city's affairs. He made an earnest and logical appeal for his resolution, which, if the Legislature passes the proper amendment to the Constitution, may mean the wholesale resignation of members of the Council next June and

the election of a new Council, consisting of four members, each with recognized responsibilities. The resolution really means the commission form of government, though the rose must smell as sweet under the name of Council, to conform with the law, and members be elected from the several wards. The introducer of the resolution used the phrase, "Will every member voluntarily resign to test this matter?" There was an almost unanimous answer in the affirmative.

This afternoon, under the resolution, two committees, Messrs. Patton and Leterman, in conjunction with the City Attorney, drafted an appeal to the Legislature. As there are but a few days remaining, the matter must be dispatched in haste.

PHILIP F. BROWN, JR.  
KILLED IN OKLAHOMA.

A Virginian, Conductor on Santa Fe System, Meets Accidental Death.  
[Special to The Times-Dispatch.]  
Blue Ridge Springs, Va., February 19.—The details of the death of Philip F. Brown, Jr., son of the late Dr. Samuel P. Brown, of Charlottesville, Va., were received here recently.

Mr. Brown had been connected with the Santa Fe System for several years, and at the time of his death was conductor of his train on the home run between Oklahoma and Gainesville, Texas.

On Saturday afternoon, February 6, while between Lindsay and Mayville, Oklahoma, he attempted to pass from the passenger coach to a caboose. There being no door to the end of the caboose, he was forced to walk on a narrow board, holding on by an iron rod overhead. While doing so, his train came to the iron bridge over the Washita River, and his body was struck by the frame and hurled below, breaking his neck and cutting a deep gash in the back of his head. Death must have been instantaneous.

He was not missed until Mayville was reached, where the engineer, with part of his crew, took the caboose and

retraced the route, finding Mr. Brown's body as mentioned above.

His remains were taken to Gainesville, Texas, where his widow resides. The funeral was conducted by the pastor of St. Paul's Episcopal Church, Rev. L. L. Swan.

Mr. Brown was in his forty-second year. He is survived by his wife, one sister, Mrs. C. P. Brown, and one brother, Douglas Brown, of Cartersville, Va.

TO REFURNISH COURT-ROOM.

County Board of Supervisors Orders Improvements Made.  
[Special to The Times-Dispatch.]  
Yorktown, February 19.—The regular monthly meeting of the county Board of Supervisors was held here. The most important business was the adoption of plans for the entire refitting of the county court-room, which was badly needed. It being over twelve years since the room was fitted out as it now is. The court-room is to have new furniture, linoleum on the floor, windows properly curtained and a complete renovation, and in time for the April session of the court. The rooms of the several county officers will also have some attention. The quarterly inspection of the jail was made by the board and several needed improvements ordered to be made there.

The members of the board also evinced much interest in the proposed celebration of Washington's birthday anniversary on Tuesday next, and decided to make every effort to have a large turnout of the people on that day.

An interesting contest is being made in Pottsville district on account of a proposition to bond the district for a new school-house. The taxpayers of the district will vote upon the proposition on Monday next, with the prospects of a close game. The amount asked for by the superintendent of public schools is \$5,000.

MADE ATTEMPT TO ESCAPE.

Solomon Shepard Surrenders After Being Shot at by Guards.  
[Special to The Times-Dispatch.]  
Richmond, Va., February 19.—Within little more than twenty-four hours after he was committed to the penitentiary here Tuesday to serve thirty years for the murder of Locomotive Engineer Holt, in Durham, Solomon Shepard, colored, made a reckless

dash for liberty, and was so closely trimmed by bullets from the rifles in the hands of guards that he stopped and gave up, while on the run from the main building to the stockade. Two bullets had cut into his clothing, one of them drawing blood. At the time he made the dash for liberty, Shepard was at work helping to complete the installation of the electric chair in the death chamber of the prison. He is spending a while in irons now as punishment for his attempt to escape.

PETITION FOR STATE-WIDE.

Matter Agitated in Farmville—Town Council Opposes Byrd Bill.  
[Special to The Times-Dispatch.]  
Farmville, Va., February 19.—Petitions in the hands of a number of the women of Farmville are being circulated for signatures, asking for an election of State-wide prohibition. Like all petitions there are being numerous signed, though by some who do not hesitate to say they would not favor State-wide at the polls, but sign the petition that the question may be settled one way or the other.

Some of the citizens of Farmville are alarmed at that feature of the Byrd bill which provides that the State shall receive all the profits from dispensaries. A special meeting of the Town Council has been held to consider the best thing to do with reference to the proposed new law, as a large proportion of the revenues of this town comes from the dispensary. The Council directed Town Attorney A. D. Watkins to go to Richmond to oppose the measure.

FIRE DESTROYS OIL HOUSE.

New York, Philadelphia and Norfolk Company Suffers Loss of \$2,500.  
[Special to The Times-Dispatch.]  
Cape Charles, Va., February 18.—Fire which originated in the oil house of the New York, Philadelphia and Norfolk Railroad shops here this morning completely destroyed the building and contents, together with the sand-house and iron racks. A large quantity of oil stored in the building was also consumed in the flames. The machine shops, office building, round-

house and a number of freight cars were saved by the diligent efforts of the volunteer fire department. The probable loss is \$2,500.

Wayland-Hilliard.

[Special to The Times-Dispatch.]  
Charlottesville, Va., February 19.—News has been received here of the marriage at Port Russell, near Cheyenne, Wyo., of Lieutenant James P. Wayland, a native of this county, now of the Ninth Cavalry, and Miss Margaret Hilliard, of Buffalo, N. Y. Lieutenant John G. Tyndall, of the Fourth Field Artillery, was best man. The bride is well known, both in New York and Wyoming, and was a particular favorite in army circles. She was welcomed to the regiment by Major Newcomb, commanding the Ninth Cavalry. Lieutenant Wayland comes of an old Virginia family, his mother, Mrs. Nanette M. Wayland, being Miss Michie, of Albemarle county. The young bridegroom has but recently returned from a period of three years of active service in the Philippines.

WHITE BURLEY TOBACCO.

How and Where to Grow It Profitably in Old Virginia—Source of Information.  
It has been demonstrated that the lands in many counties of Virginia can grow the White Burley type of tobacco, and it has also been demonstrated that there are other lands in Virginia which can bring forth other grades of tobacco, but cannot bring the White Burley successfully. The simple fact is that White Burley grows to perfection on limestone lands, and will not grow elsewhere. If a farmer has limestone land, no matter where in Virginia he may be located, he can raise the Burley. If he has not the limestone land he can't raise the Burley, and it is folly for him to try. That Virginia can raise the thirty to forty million pounds of White Burley which the Virginia tobacco manufacturers need every year, has been thoroughly demonstrated the past year. But the Virginia farmers who own limestone lands need some instruction along these lines, and certain Richmond handlers of the week have decided to furnish them with the desired information.

G. W. Gray, of Front Royal, Warren county, who, from experience and study, has mastered the White Burley problem, of course, they are happy. They are still filling spring and summer orders, and their shipments for the past week amounted to nearly 5,000 cases of shoes, how to make the limestone land to tell the farmers in the limestone sections how to make the White Burley. Mr. Gray will not tell the farmers how to make the tobacco, but he will furnish them with seed to experiment with. Any communications addressed to him at Front Royal will have his prompt attention.

IN JOBBING CIRCLES.

Richmond Wholesalers Are Very Well Pleased With Conditions of Trade.  
There was decided activity among the wholesale dealers during the past week. The general condition of trade was in all respects pleasing to the jobbers in every line. The commission men and dealers in truck and produce declared that business was unexpectedly good, and the wholesale grocers made similar statements.

It is the busy season with the shoe jobbers, and, of course, they are happy. They are still filling spring and summer orders, and their shipments for the past week amounted to nearly 5,000 cases of shoes, how to make the limestone land to tell the farmers in the limestone sections how to make the White Burley. Mr. Gray will not tell the farmers how to make the tobacco, but he will furnish them with seed to experiment with. Any communications addressed to him at Front Royal will have his prompt attention.

Virginia and the South there is great activity in the building line, and this brings to the hardware people big orders for such hardware as is required for home-making. As spring approaches these orders are likely to be enlarged.

In drug and fancy goods lines business is steady, and every way satisfactory to the jobbers.

The tobacco manufacturers and the

wholesale dealers report decidedly active business, and the iron-makers and stove builders say they have no complaints to make. Altogether Richmond is having what is perhaps the best spring trade in the South it has ever before enjoyed, which simply means that the South is finding out that Richmond is really the trade gateway to the great and growing Southland.

## Keysville, Va. Wants:

Buggy Factories, Wagon Factories, Furniture Factories, Box Shook Factories, Spoke and Handle Factories, and all other kinds of wood-working factories.

The finest clay obtainable for making brick—fire and building brick—the best of tiling, etc.

Located at junction of two branches Southern Railway. Write quick to

**BOARD OF TRADE OF KEYSVILLE, VA.**

W. E. HALEY, President. I. F. HANMER, Vice-President.  
H. D. PETERS, Secretary. A. B. HANMER, Treasurer.

## FINEST WATER POWER IN VIRGINIA At Brookneal, Va.

Where Virginian Railway crosses the Norfolk and Western Road. As cheap freight rates on coal, lumber, etc., as any Virginia city—cheaper than nintenths of the towns. With tremendous water power in two rivers, with raw material in abundance, and in the midst of a superb farming section, Brookneal is an ideal location for manufacturing enterprises.

Pulp Mills, Furniture Factories, Wagon, Spoke and Handle and Box Factories, House Furnishing and Excelsior Factories, and many other Wood-Working Factories are wanted, and great inducements are offered.

Also, Flour Mills, Knitting Mills, Shirt and Overall Factories will pay big dividends. Address

**BUSINESS MEN'S ASSOCIATION OF BROOKNEAL.**

B. R. MONROE, President. R. D. WILLIAMS, Secretary.

## Lawrenceville, Virginia Water Works & Sewerage Franchise for Sale

The Town Council of Lawrenceville, Va., offer for sale Water Works and Sewerage Franchise. It is a great opportunity for builders of such systems. Bidders should write quick for full information.

Also, this progressive town wants a live real estate agent. A man with experience will find ample financial and other help in establishing himself.

**LAWRENCEVILLE BOARD OF TRADE.**

W. S. PEEBLES, President. W. A. TROTTER, Jr., Treasurer.  
MARVIN SMITH, Vice-Pres. CHAS. A. BARROW, Secretary.

**Tanner Paint and Oil Co.,**  
Oldest and Largest Paint Manufacturers in the South.  
Telephones Madison 399 and 1797.  
1419 E. Main Street.  
Look for the Yellow Barrels

**Holly Springs Lithia Water**  
"Good to the Last Drop."  
A Table and Medicinal Water Without a Peer.  
5 Gals. 25c  
Phones: Monroe 477 and 478.

**TATE SPRING**  
Modern Hotel, Steam Heat, Electric Lights, Rooms with Private Bath, Golf, Riding, Hunting Reserve

**Tate Spring Water**  
Prescribed by physicians, on sale by druggists everywhere for Constipation, Dyspepsia, Stomach, Liver, Kidney, Bladder and Blood.

**J. M. Studebaker**, automobile manufacturer, South Bend, Indiana, says, "I owe my life and health to the waters of Tate Spring."
